Beas Manufacturing

## FEATURED PARTNER

BitPeople

# Beas Manufacturing has been a prerequisite for ExamVision to handle its **growth of 40% in sales and 200% in revenue**

ExamVision specializes in optics and optical solutions. They offer the most customizable loupes on the market, built from only the finest components and protective coatings. ExamVision loupes are the most customizable optical loupes for dentists and surgeons on the market. Made by hand with the highest-quality components to meet the unique loupe needs, including adjustable magnification and field of view, blue light protection factor and stylish lightweight design.

## Customer Challenges

- Partial paper-based production and manual creation of sales orders - very time-consuming and prone to errors
- Lack of visibility of capacity, order progress and production workload
- Insufficient data quality which lead to ineffective processes and decision making

## Solution

- Beas Manufacturing's out-of-the-box configurator saves us the need to integrate 3-party software
- Beas Manufacturing contains detailed production planning, quality control and detailed material planning
- The system is flexible and can adapt to our needs without major development within the production

## Results

- Beas Manufacturing gave us more efficient processes within the organization which lead to an increase in productivity and effectiveness
- Significant process optimization which helped us increase the growth
- Beas Manufacturing has given us a transparent production leading to cost-effectiveness in the entire organization

*"THE IMPLEMENTATION OF BEAS MANUFACTURING HAS GIVEN US FULL CONTROL OF THE PRODUCTION, AND WE ARE NOW ABLE TO SCALE UP THE BUSINESS AND HANDLE THE INCREASED DEMAND WITHIN THE MARKET. SAP BUSINESS ONE AND BEAS MANUFACTURING SUPPORTS OUR VISION TO DOUBLE OUR SALES IN 2025".*

Jacob Mohr Nielsen, CIO
